Breast Health Center

乳房健康中心

Cancer is a terrifying disease, and considering that breast cancer is the third most common cause of death for women in Hong Kong, Hong Kong Adventist Hospital – Tsuen Wan is excited about opening their new comprehensive breast care facility. Reassuringly, most breast problems are benign; however, it is prudent that all women should have their breast concerns properly assessed by experienced doctors, as early detection and treatment of breast cancer saves lives.

Being a Christian Institution, our main concern is for the optimum health of all members of the community. Not only do we heal disease, but we provide health education aimed at reducing the incidence of future ill health in our patients.

乳癌是香港女性的第三位殺手，萬不能掉以輕心。可惜的是，它跟其他癌症一樣，往往難以察覺。萬幸的是，大部份乳房腫塊都屬良性；不過，即使如此，所有婦女都應該由富經驗的醫生定期檢查乳房，以防萬一。因為，愈早發現乳癌，治癒的機會率就愈高。

有鑑及此，香港安醫院—荃灣增設了全新的綜合性乳房健康中心。身為基督教團體，我們以照顧社區裡所有成員的健康為己任。不過，我們不單單醫治疾病，還希望通過健康教育，幫助我們的病人預防疾病。

Scope Of Services

服務範圍

1. To identify potential new cases by Breast Screening Package, triple assessment* or investigations such as Breast Examination/ Mammogram/ Ultrasound Breast (Bilateral/ Unilateral)/ Core Biopsy/ MRI Breasts.

Multidisciplinary Team

多門專科會診

Our new Breast Health Center will be supported by an experienced team of specialists comprising breast surgeons, oncologists, radiologists, plastic surgeons, experienced nurses, physiotherapists, pathologists and counselors, who together, will share the care of each patient offering individual tailor-made treatment plans.

本中心的醫療團隊由一群具豐富經驗的專家組成，包括乳房外科醫生、腫瘤科專家、放射治療科醫生、整形外科醫生、物理治療師、心理輔導員和專職護士等。通過多方面的考慮和分析，綜合各專家意見，每位病人的治療方法均是「度身訂造」，符合其需要。

One-Stop Care —— 一站式服務 ——

Most services and treatments are provided in one facility so care is convenient for the patient. Care is given in a supportive environment, and consultation rooms and imaging areas are designed for the comfort of patients.

為照顧病人的生理和心理需要，大部份治療和護理均在香港港安醫院一荃灣內進行，並由醫生協調，病人可免受周車勞頓之苦，亦無須長期輪候。事實上，由舒適的輔導室至檢驗地點，院內各項設施均以體貼病人的需要作優先考慮。

One-to-one specialist nurse will follow the treatment journey of the client.

- + Facilitates timely access to quality health by arrangement of clinic follow up, investigations, operation date, post-op follow-up & investigations.
- + Accompanied client and their care givers to provide psychological supports in breaking of bad news and the whole treatment journey.
- + Provide (pre- & post-op) education, wound management and counselling e.g. nature of disease treatment plan (types of operation offered by surgeons), post-op wounds and drain care, post-op complication, post-op lymphedema care and education, briefly introduce admission and discharge plan.
